

STAY TUNED: GREAT THINGS ARE COMING!

We've got something exciting in the works! We'll soon be breaking ground on a brand-new custom home — starting from an empty lot. Over the coming months, we'll take you behind the scenes and share the full journey, from the first dig to the final details. Follow along as we bring this home to life and showcase what goes into every step of the Platinum Construction process. Stay tuned — great things are coming!

BUILDING GRATITUDE: WHAT WE'RE THANKFUL FOR THIS YEAR

As the season of gratitude rolls in, we want to take a moment to reflect on what truly matters most to us — the people, partnerships, and purpose behind every home we build.

This year, we're especially thankful for our incredible clients who trust us to bring their visions to life. Every home tells a story, and we're honored to be a part of yours. We're also grateful for our talented team and dedicated trade partners who put their craftsmanship and heart into every project. It's their hard work and pride in what they do that make Platinum homes stand out.

And finally, we're thankful to call Southern Utah home — a community full of beauty, opportunity, and inspiring people who share our love for quality and connection.

From all of us at Platinum Construction, thank you for your continued trust and support. We're excited for what's ahead and look forward to building even more dream homes together in the coming year.

ASK THE BUILDER: YOUR CUSTOM HOME QUESTIONS ANSWERED

We hear great questions from homeowners every day — and we love helping people understand what goes into building a home. This month, we're answering a few of the most common ones, like "How long does a custom home take to build?" and "What should I know about allowances?" Have a question you'd like us to cover next month? Hit reply — we'd love to hear from you! Check out our blog for answers!

OUR BUILDING PROCESS: WHY PLANNING EARLY MATTERS

If you're thinking about building your dream home in 2026, now is the perfect time to start the conversation. The early planning stage — design, budgeting, and permitting — sets the foundation for a smooth build in the spring. Our team guides clients through every step so that when it's time to break ground, everything is ready to go. Starting early ensures your home gets the attention, detail, and scheduling priority it deserves.
